So sorry I let this email lapse for so long.

I looked into the varying sizes of wall segments and I would think it would cost around \$250-300 just to buy canvas drop cloths that could be pieced together over the tall wall segments. Maybe \$400-450 if you want to also cover that short back wall where the fencing is.

Then, if we added just a simple festive pattern or holiday design it could be around \$3000 in paint and labor, depending on how intricate we get on that design and how much wall you'd like to cover. It's going to take several layers of surface priming to help protect the material, but also keep it flexible and weather proof at the same time. I have painted on canvas drop cloths for interior use, but not exterior, so I might need to do a little research to make sure my ideas will work. If you have someone who could sew some of these segments together that would be great, but not totally necessary.

Hope this helps!

Festus Tourism Commission

To Whom It May Concern,

Please accept this letter of support for the Tourism Grant Application submitted by Spotlight Community Theatre, LLC. The Contrarian Concert Hall & Theater will be the venue of Spotlight's Summer 2024 season, and Newsies Jr and Oklahoma! will be the inaugural theatrical performances in our newly renovated space. We are proud to work with Spotlight to present these two musicals at a discounted rental rate due to the organization's standing as a non-profit, the benefit these performances provide to the Festus economy (and greater Jefferson County), and the opportunity it presents to draw patrons to our business. We see this collaboration as an opportunity to support our business as well as a growing community group. Bringing arts entertainment to the Festus area is central to both our missions, and the benefits to the local economy are central to the aims of the Festus Tourism Commission.

Thank you for your consideration of this grant proposal, and if you should have any questions please feel free to contact me at 314-540-0416 or [contrarianconcerthall@gmail.com](mailto:contrarianconcerthall@gmail.com)

Sincerely, Patrick Thomson
