BICYCLING SAFETY TIPS

Bicycle operators have the same rights and responsibilities as motorists on Missouri roads. Operate your bicycle like you do your car.

- Ride **WITH** the flow of traffic, not against.
- If riding along parked cars, maintain a straight path, do not swerve in and out.
- Stay out of the "Door Zone" -- ride at least 5 feet away from parked cars.
- Act predictably and be courteous.
- Signal turns and lane changes.
- Observe all traffic signs and signals.
- Ride in the right-most lane that serves your destination. If making a left turn on a multi-lane road, use the left lane or turn lane, as appropriate.
- Be visible. Wear bright colors and reflective clothing. Use front and rear lights at dawn and dusk, as well as at night.
- For complete list of Missouri bicycle laws, visit <http://mobikefed.org/files/bicycle-statutes-flyer.pdf>

WALKING SAFETY TIPS

- Look for traffic in **ALL** directions, especially turning traffic at intersections.
- Make eye contact and ensure that drivers **SEE** you before stepping in front of any vehicle.
- Where available, use the sidewalk.
- If there is no sidewalk, walk on the **LEFT** side of the
